25X1	Comment. This troop train continues the return movement of troops which probably belonged to the 10th Gds Tank Div.
25X1	Comment. According to a previous report it was believed
	that a major field exercise was conducted in the Sernau area during the first week of October 1953. This assumption apparently is confirmed
25X1	by the present report. The troop trains from Bernau and Buch probably carried units
45.0	returning from the above field exercise. The unloading stations in the Templin and
	Pressulau area indicate that units of the 25th Tank Div possibly also participated
	in the field exercise.
25X1	Commont. The two troop trains probably carried components of the 6th
	Arty Div which returned to their home station.
25X1	Comment. As a tank unit of the 6th Cds Mecz Div moved from East Berlin
25X1	to Remplin on the troop train on 26 September 1953,
	it is believed that, on 5 October 1953, the troop train
25X1	carried another unit of this division to East Serlin.
